

Joint Closure TB

Artikelnummer

11100963

Distribution point for up to 56 micro-cables.

Joint Closure TB facilitates mid-span access and as distribution point in FTTH networks. The closure is delivered with one oval cable inlet and has 5 or 8 open holes for customer adaptation and without end plugs or bushings which are selected separately. The closure is equipped with cable strength member clamps, splice protectors and Multicassette. Depending on the amount of 3-10 mm cables to be installed, the closure TB is delivered in two different models, TB5 and TB8 as specified in the table below, with the appropriate number of cassettes and splice protectors.

End plugs and/or cable bushings are ordered separately. Brackets for attachment on walls, racks, in manholes or on poles, are available as options and ordered separately. Together with a locking cap, the closure can easily be locked with a padlock. The closure TB is delivered with heat shrink tube + branch-off clip for the oval inlet and with the articles specified in the table basic configuration.
