

Splice cabinet T4/60A 7mm Duct

Part no.

11470223

Splice cabinet T4 for fibre optic access network.

- Splice cabinet T4 is a wall-mounted cabinet intended for splicing of optical fibre cables and blown fibre system for FTTH.
- Splice cabinet T4 is used for connection of cables/ducts installed either from above (A) or from below (B).
- The cabinet can be equipped with up to 4 Tykoflex splice organizers, which means that up to 192 (288) fibres can be spliced in the cabinet depending of the number of cassettes.
- Mid-span friendly.
- To get 192 single fibre capacity Multicassette 11 202 204 for 48 fibre has to be used, alternatively SLIM splice protectors 11 218 347 = 72 fibre/cassette.
The Multicassette can also be used for storage of passive devices, for example splitters.
- The cabinet is equipped with a lid which can be locked with a standard key lock.
The lid also serves as a workbench for the splice organizers during splicing.
- Mounting bracket 11 408 264 enables easy handling without having to open the lid.

- Splice cabinet T4 11 470 205 has inlets for 6 standard cables. Splice cabinet T4 11 470 223/224 has inlets for 60 ducts 7 mm with mechanically locked slots in end plate. Splice cabinet T4 11 470 220/225 has inlets for 96 micro cables/ducts \varnothing 5-7 mm which has a friction fastening with rubberized lamellae inside the end plate.
- High performance
- Compact size
- Flexible fixing of ducts and cables
- Easy and fast handling during splicing of fibres
- Equipped with a lock
- Handles 5-6 and 7 mm ducts separately or mixed.
- High performance
- Compact size
- Flexible fixing of ducts and cables
- Easy and fast handling during splicing of fibres
- Equipped with a lock
- Handles 7 mm ducts.

Capacity:

4 Splice organizers, 60 subscriber connections with micro ducts or micro cables max 60 \varnothing 7mm.

Mounting: Wall mounted indoor or inside an outdoor cabinet

Dimensions:

Height: 350 mm

Width: 280 mm

Depth: 140 mm

Material: Powder coated aluzinc steel

Weight: 6 kg

IP: IP43
